Anderson and Crittenden.

Yesterday brought us the most gratifying intelligence we could possibly receive from Frankfort. The Legislature has with promptness responded to the demands made upon it. We do not know which to commend most, the spirit of the resolutions, or the excellent selections they have made of officers. General Anderson is the very best man that could possibly be selected for the command of troops in Eentucky, and the authority conferred by the State upon him, to call out troops, is such an indersement as we expected. General Anderson is a native of Jefferson county, in this Sta'e, and has been an active and efficient soldier all bis life. Whatever was necessary to add to his fame, and to make Kentuckians proud of him, was the crowning glory of Fort Sump ter. Every man then felt proud of the glorious efficer who, with his little spartan band, had resisted the sho: and shell of a hundred batteries, manned by ten thousand men, and his call will send a thrill to every heart, and the flame of the flery cross will be responded to by every house and workshop in the land. The idle man of wealth, a dilettante in art and literature, the busy merchant, the farmer, trader, and speculator, the mechanic, the laborer, all in one repel the invasion. Tennesses has sown has aroused the lion State of the border, commander as we have, and the enthusiasm that will cluster around him, we are sure, not only of victory, but of a triumphant annihilation of this base insulter who has attacked us.

In the selection of the commander of the State forces, an equal wisdom has been General Crittenden will rally ground him the very best young men of the State. His chivalric courage, his unimpeachable honor, his experience and his decisive character, are the very attributes cause, and under a brave commander, now their strong arms. is the time. We foretell that General Crit if these vigorous movements are kept up. If defenders of our homes are alike dependen: necessary, let us try at the ballot-box to soldiers are prompt in the field and preup the ranks in defense of Kentucky. Let street. No doubt but they will be present every man adhere to his opinion as tena. in large numbers. ciously as ever, but never let them interfere and divide us in these times. Let us have a perfect and complete union of sentiment and feeling in this matter. Under Anderson and Crittenden what may we not accomplish? Let us rally around them, and offering the olive branch in one hand, and the firm resistance of the sword against invasion in the other, labor to prevent any further aggression and to bring about

James Stephens, an old citizen who fought under Gen. Houston in the Texan war, has issued a call for a company. He proposes to raise a company to serve in Curran Pope's regiment of infantry, to be mustered into service in Gen. Anderson's in favor of coercing obedience to the laws silver spoons, and sentenced to one hundred division.

Capt. Stephens has establishel a rendez vous on the north side of Jefferson, three doors below Preston. Those who desire to give their service to Kentucky and to their country, who join Capt Stephens' company, will find him an experienced commander. Read his advertisement in the advertising columns.

THE RIGHT MAN IN THE RIGHT PLACE Daniel Gilman, an old and respected citizen of Jefferson county, has obtained the contract for supplying Camp Sherman, at the Fair Grounds, with meats, &c. Mr. Gilman has been a cattle dealer for years past. No better selection could be made.

The New Hampshire Gazette, a paper one hundred and five years old, died last week. It was long a leading and influential paper in the Granite State.

THE RALLYING OF THE HOME GUARDS -We feel warmly disposed to compliment the cers for their extraordinary promptness. To no one is there more due than to General Pope, who, indeed, may be said to be the life and spirit of the whole movement. At about 8 o'clock on Tuesday night, officer Kirkpairick came to General Pope's home, and announced that the Nashville trains had and after this date, Postage Stamps, and He at once mounted his horse and rode to ment of subscriptions to the Daily or to protect the property of the road, which was at once accepted. The appointment was then made to meet at tien. Anderson's fied. room. General Pope then rode down to the Police office and found Mr. Dent, the Chief of Police, calling the roll. At his request, the officers called the captains of the Home Guard together.

At about nine o'clock, General Pope had his interview with Generals Anderson and Sherman. He was asked how many men could be furnished, and how soon they could be ready. He promised five hundred men, and engaged that they would be ready by eleven o'clock. Promptly at the hour, the torces were gathered-as fine and soldierly a body of men as ever shouldered a musket utmost enthusiasm, and we must all, as cittheir prompt response. General Pope was on in Missouri. up the whole night, attending to the transportation, and seeing that they were well provided with everything necessary. On Wednesday, another call was made by Gen. Anderson, and as promptly responded to Louisville, with such gallant defenders, can never be in danger. It is a living, moving wall, behind which, the city will be as safe as if sheltered by the hand of Providence.

FOURTEEN BALLET GIRLS BURNED—SEVEN OF THEM FATALLY.

The fire at the Continental Theater, Philadelphia, on Saturday night, was fearful in its results. Miss Cecilia Gale was about robing herself in ballet costnme. She stood upon a settee to reach her dress, and somehow flirted it into a jet of gas, when it was instantly ignited Bafore the young lady could recover from her fright, her clothing was all ablaze, and her sisters and several of the ballet girls from an adjoining dressing room, rushing up to assist her, were in turn set on fire.

About a dozen of these helpless girls were thus burning at once, and the fire ran over their gauze and among their underclothes, making fast to the closo leggins, or tights, and literally burning to the bone. Their screams were thrilling, and no scene of horror that the stage ever witnessed may be compared to the terrible picture behind the scenes, where the fire from the burning dresses blazed up to the ceiling, and singed the lashes and hair of the affeighted women. Miss Cecilia Gale, writhing and still in flames, darted down the stairs as stated. He waves, and wrapped it around her. The (Hobbs') he very wisely got off. [From the Louisville Journal.]

The expedition that left the city Wednesday at daylight, consisting of about seven hundred Home Guards under Col. Johnson, and Gen. Ronssean's brigade, the whole under command of Brigadier General W. T Sherman, reached Lebanon Junction at

about eight o'clock in the morning, leaving the Crittenden Home Gnard and two other companies of Home Gnards detailed to guard the road. Although early in the morning, the people were ont at all points along the road and enthusiastically cheered the trains, waving their flags. The men were in the finest spirits and eager for a

On reaching Lebanon Junction, it was liscovered that the town was almost entirely leserted, the citizens having fled at the approach of our troops. H. K. Wells, the keeper of the hotel, and who was implicated in the telegraph wires, was in the van of the flying citizens, and was not caught, although a strict search had been instituted for him. The telegraph wires and operating instruments had been destroyed, and a further examination showed also that Rolling Fork bridge, a mile to the south, had been burned and was a total wreck.

The countrymen who flocked into the town after its occupation by the Union troops, stated that on Tuesday afternoon a undred men or so, under Emmett Garvin, of this city, had seized the train bound South, and after destroying the bridge over Rolling Fork, had retired to Muldrough's Hill, which they were occupying, several hundred strong, immediately com-manding the high tressel work over Clear

After a few hours' delay an advance guard of Rousseau's Brigade, under Capt. Prime, of the Engineer Corps, was thrown forward, having forded the river and began an exploration of Muldrough's Hill. It was dis-covered that at the approach of the Union troops the rebels had fled with the train captured at Lebanon Junction and the other taken at Elizabethtown and were then beyond Elizabethtown. The latter place was reported deserted, and it was understood when our reporter left that Captain Prime's pickets would occupy the town.

It was also understood that the Union men of Nolin had, on learning of the approach of the trains seized by the rebels, urned the bridge over that creek, and that in consequence, the trains are now safely between that point and Elizabethtown. A ight had occurred, it was also said, between the rebels and Union men of Nolin, in which the rebels are said to have suffered severely. We cannot wouch for the truth of the latter part of this statement, but the destruction of the Nolin bridge is probably true. The trains stolen will probably be recovered.

Capt. Bowman's company of Home Guards, in searching for provisions, made a seizure of contraband, consisting of pistols, medi-cines, and various kinds of merchandise, amounting in value, it is thought, to \$5,000, and filling an entire car.

Shortly previous to the departure of our eporter from the Lebanon Junction, a rert came by two several messengers from Lewisburg and Boston, announcing that about 400 secession cavalry were engaged in roving around the country and seizing the arms of all the Union men, and impressing horses and men into their service. A. great deal of reliability cannot be attached to the statement, although it was understood an expedition would be dispatched to Lewis-

burg immediately. The command is to be reinforced to-day by a regiment of 1,000 Indianians, when the Home Guards will be relieved.

MESSES, HARNEY, HUGHES & CO. Jan. 28, 1859, viz: When we hear men talk about the oppression of the Government and the dissolution of the Union, we involuntarily turn to the real condition of the country, and ask ourselves where are the evidences of a down-trodden people? Where the burdens that press so heavily upon ue? Where the ruin and devastation that newspaper editors and sensation orators so often depict in terrible colors as at our very doofs, and staring us in the face? Echo answers, where?

There is not to day, on the face of the globe, a people so free, independent, happy and prosperous as the citizens of the Southern States of the American Union. This is a fact that cannot be denied. Our aws are liberal and just. Labor, in every department of human industry, is having an abundant reward. In the midst of general peace and plenty-even our slaves are happy, and compare favorably in the matter of personal comfort with any laboring people on the globe-let us cease our murmurs, ur discontents, our desires for change, and thank Providence that we are as we are. Above all, let the people, as if with one voice, repudiate and silence for-ever those ministers of evil, who are, even now, trying to convince them, in opposition to their senses, that they are degraded, oppressed, and wronged, and that it is their duty to raise the hand of violence against the benignant institutions under which we have grown so great, free, and independent. Compare it with her present condition, and if they do not blush for shame, repent, and return to their allegiance, then it is my opinion that 'Philip is ' and ought to be made sober with & nod thrashing on his external relations. Fever and Ague

Is a terrible disease. Of "all the llls that flesh is held to," it is the faintest in its first manifestations, the most unrelenting in its progress, and the most defiant of medical skill. Fever and Ague is more destructive of life than consumption, because it is more easily induced, and therefore more prevalen. It marks its victims for the grave, !!ke an executioner's bond. Day by day the sufferer grows weaker and weaker, and each hour does he fear a strong consciousness of approaching the tomb. WASHINGTON, September 19 -A special dispatch to the New York Post says a detachment of loyal Maryland volunteers crossed the Potomac at Williamsport a day or two since and attacked a company of rebel soldiers, and drove them some distance beyond Shepardstown, Virginia.

Several negroes, in full uniform, recently came to this city with a regiment from the city of New York.

Secretary Cameron now insists that

colored men shall not wear the army u siform. The gamblers who were arrested some

days ago by the Provost Guard of this city were released yesterday, and the faro banks are again in full blast. The Intelligencer says: "We believe that

the frequent threats of the Richmond papers in regard to closing the Potomao by batteries along the western shore have never made any serious impression on our military authorities. There are shells enough at command at any time to enable our vessels to dislodge the rebels along the line.

NEW YORK, Sept. 19.—This evening's Commercial says: "We think we have sufficient authority for saying that so far as a movement of the national troops is concerned, there is no probability of an en-gagement within thirty days. Of course, if attacked there will be a general and severe battle. Our troops are well prepared to meet any number the enemy may bring, but for perfecting the arrangements for the onward movement, it is deemed best to accomplish certain things which may not be effectually done in less than thirty days. These matters have no reference, we believe to the raising here of more men, the Gov ernment being satisfied that it has all that it will require."

JEFFERSON CITY, Mo., Sept. 19.—There is no definite intelligence from Lexington to day. Dispatches were received here this af.ernoon from Booneville, saying it was reported and surely believed that Lexington had been taken on Tuesday. They say there were 4,000 Federal troops at Booneville, besides the Home Guards.

ADVICE.—As the hot season is approaching, every person should prepare their system for the change, and there is no remedy so applicable as "McLean's Strengthening Cordial and Blood Purifier." It will purify the blood thoroughly, and at the same time erengthen and invigorate the whole organi zation. The immense quantity of it that is sold daily, is proof enough of its great virtues in thoroughly removing all impure matters from the blood. We say to all, try it! It is delicious to take. WASHINGTON, September 18 -R T Mor ley, of Pennsylvania, has been appointed general manager of the military railroad routes, in place of Col. Thos. A. Scott.

Baltimone. September 18.—Special Dispatch to the New York Herald —All the reports about General Johnston crossing the Potomsc are unfounded.

There is much alarm at Martinsburg and

Winchester about General Banks crossing the Potomac with 21,000 men.
The rebele had sent to General Johnston for assistance.

Reliable accounts from Winchester state that the railroad between Strasburg and that place, is not being built as reported, and that the rails taken up near Martins burg, are to be used for laying a line from Richmond to Manassas. It has hitherto required three days for the transportation

of troops between these places. New York, September 19 .- The Herald's dispatch from Washington says the difficulty relative to General Frement is the interference of the Blair family. It is from them

that the charges have emanated.

I understand the real secret of the hostility of the Blairs is that Fremont would not permit them to dictate to him, and would not lend himself to a combination of contractors from New York, Philadelphia, and Cincinnati, and elsewhere, who had the favor of the Postmaster General. I am assured, that some ten days ago. Frank P. Blair demanded that \$3,000 000 worth of contracts should be given to that combina-tion, and that General Fremont's response was that his duty was to oppose all enemies of the Government, whether Southern traitors or Northern schemers.

Upon inquiry at the headquarters of the army of the Potomac, I have ascertained positively that no orders, general or special, relative to fugitive slaves, have been issued. So all reports and comments on that subject, which have appeared in the papers, to say the stock of dry lumber, each, doors, blinds, the least, are premature. Nothing has yet ta, willfall short, owing to the vast amount occurred requiring action on his part on that subject.
